Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: A method for analyzing the quality of a high speed signal is disclosed. The closest reference The IBM Journal publication "Automatic Distortion Correction for Efficient Pulse Transmission" by Schreiner et al, January 1965 Pages 20-30, discloses a similar method. However, Schreiner et al does not disclose or fairly suggest the claims limitations, as recited in lines 3-20. Such limitations, as recited in the base claim and the dependent claims, are neither anticipated nor rendered obvious by Schreiner et al. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jean B. Corrielus whose telephone number is 571-272-3020.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jay Patel can be reached on 571-272-2988. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
